**CASCADE GRANT**

## SUMMER ACTION

On 16th – 17th June, all members took part in Enactus Nottingham's first ever virtual Summer Action, a training session designed to help teams get prepared and motivated for the upcoming Summer period.

Our Team Leader and Executive training started off with an expectation setting session from Natasha Bonner (President) and Kelly Lai (Vice President). We also welcomed guest speakers including Alumni Cherie White from Think for the Future, Charlotte Hurst, and our University advisers, Jackie Andrews, and David Park.

Project Team Leaders delivered Summer Action remotely via Zoom to each project team, including sessions on Local and International PR communications, Corporate Relations, Marketing, Risk Assessments, the importance of Summer and a SMART goal setting task.

## SENSE EVENTS QUIZ

Summer Action was concluded with an Enactus Nottingham quiz run by SENSE Events. Members competed on a variety of topics including riddles, logos, and Summer Action topics.

# COVID-19 FOODPRINT

Store sales have been on the rise from a generous donation by the University of Nottingham Students Union SPAR shops to ensure no food was wasted during their closure.

Foodprint have launched it's Summer 2020 Strategy Review and appointed a new Team Leader.

Parcels for Nottinghamshire Hospice are ready to set off, including PPE and a special surprise of thank you cards written by school children from partner schools.

A student innovation project at the University of Nottingham recently won Ecotrophelia UK, in collaboration with Foodprint and the re-purposing of surplus bread.

Foodprint met with the Nottingham West MP Nadia Whittome to discuss ways of working together and to arrange a visit to the Foodprint Store.

## 180 DEGREES STUDENT RESPONSE NETWORK

Enactus Nottingham have been fortunate enough to collaborate with 180 Degrees Consulting, the world's largest university-based consultancy network, as part of the Covid-19 Student Response Network that supports charities and social enterprises in navigating the challenges brought about by the COVID-19 pandemic.

Consultants from 180 Degrees Nottingham will be partnered with Enactus Nottingham's international projects Empower, Nutrigreens and Harvest Hub over the next few months to deliver advisory services on a range of areas including marketing, operations, and finance.

## CODEX TASTER SESSION

On Wednesday 20th May CodeX held their first 'Introduction to Python' taster session for beginners with approximately 13 people, of which they received 3 new sign-ups for the course.

CodeX are currently teaching 6 individual clients each week and running sessions with Next Jump as part of Next Jump's Community Online Academy every Thursday.

## ENACTUS WARWICK NETWORKING SESSION

A recent virtual networking session with Enactus Warwick created an opportunity to get to know each other's executive boards, projects, and operations. It created a platform to share expertise, discuss adaptations to COVID-19 and focus on areas of development or potential opportunities for collaboration. We hope to reach out to more Enactus teams and encourage the development of strong relationships within the Enactus UK network.

## CASCADE GRANT

International Projects Harvest Hub and Empower were awarded the Cascade Grant from The University of Nottingham to support the student-led initiatives. Empower was granted £1000 that will go towards employing Ghanaian women to create and sell reusable menstrual pads. Harvest Hub received £700 towards sustainable poultry farming in Kenya to enhance employability and improve the quality of life in Kenyan communities.
